Cut It Out The C Section Epidemic In America:

Cut It Out Theresa Morris, 2013-10-07 Examines the exponential increase in the United States of the most technological form of birth that exists the cesarean section and challenges most existing explanations of this unprecedented rise arguing that there is a new culture within medicine that avoids risk or unpredictable outcomes and instead embraces planning and conservative choices all in an effort to have perfect births

Cut It Out Theresa Morris, 2016-11 Of comparative developed countries only Brazil and Italy have higher c section rates c sections occur in only 19 percent of births in France seventeen percent of births in Japan and sixteen percent of births in Finland How did this happen Here the author challenges most existing explanations of the unprecedented rise in c section rates which locate the cause of this trend in physicians practicing defensive medicine women choosing c sections for scheduling reasons or women s poor health and older ages The explanation of the c section epidemic is more complicated taking into account the power and structure of legal political medical and professional organizations gendered ideas that devalue women hospital organizational structures and protocols and professional standards in the medical and insurance communities

Obstacle Course David S. Cohen, Carole Joffe, 2021-07-27 This book tells the real story of abortion in America one that captures a disturbing reality of sometimes insurmountable barriers put in front of women trying to exercise their legal rights to medical services Without the efforts of an unheralded army of doctors nurses social workers activists and volunteers what is a legal right would be meaningless for the almost one million people per year who get abortions There is a better way treating abortion like any other form of health care but the United States is a long way from that ideal

Health Care in Crisis Theresa Morris, 2018-07-17 More and more not for profit hospitals are becoming financially unstable and being acquired by large hospital systems The effects range from not having necessary life saving equipment to losing the most experienced nurses to better jobs at other hospitals In Health Care in Crisis Theresa Morris takes an in depth look at how this unintended consequence of the Affordable Care Act plays out in a non profit hospital s obstetrical ward Based on ethnographic observations of and in depth interviews with obstetrical nurses and hospital administrators at a community not for profit hospital in New England Health Care in Crisis examines how nurses care of patients changed over the three year period in which the Affordable Care Act was implemented state Medicaid funds to hospitals were slashed and hospitals were being acquired by a for profit hospital system Morris explains how the tumultuous political economic changes have challenged obstetrical nurses who are at the front lines of providing care for women during labor and birth

Reproduction, Health, and Medicine Elizabeth Mitchell Armstrong, Susan Markens, Miranda R. Waggoner, 2019-11-22 At a moment when reproduction is increasingly politicized the volume explores the breadth of contemporary research on reproduction from the perspective of medical sociology illuminating the lived experience of reproduction and offering insights to inform sociology and health policy

The Sacred Project of American Sociology Christian Smith, 2014-07-03 Counter to popular perceptions contemporary American sociology is and promotes a

profoundly sacred project at heart Sociology today is in fact animated by sacred impulses driven by sacred commitments and serves a sacred project Sociology appears on the surface to be a secular scientific enterprise its founding fathers were mostly atheists Its basic operating premises are secular and naturalistic Sociologists today are disproportionately not religious compared to all Americans and often irreligious The Sacred Project of American Sociology shows counter intuitively that the secular enterprise that everyday sociology appears to be pursuing is actually not what is really going on at sociology s deepest level Christian Smith conducts a self reflexive tables turning cultural and institutional sociology of the profession of American sociology itself showing that this allegedly secular discipline ironically expresses Emile Durkheim s inescapable sacred exemplifies its own versions of Marxist false consciousness and generates a spirited reaction against Max Weber s melancholically observed disenchantment of the world American sociology does not escape the analytical net that it casts over the rest of the ordinary world Sociology itself is a part of that very human very social often very sacred and spiritual world And sociology s ironic mis recognition of its own sacred project leads to a variety of arguably self destructive and distorting tendencies This book re asserts a vision for what sociology is most important for in contrast with its current commitments and calls sociologists back to a more honest fair and healthy vision of its purpose

Reproduction and Society: Interdisciplinary Readings Carole Joffe, Jennifer Reich, 2014-09-04 A collection of essays framed with original introductions Reproduction and Society Interdisciplinary Readings helps students to think critically about reproduction as a social phenomenon Divided into six rich and varied sections this book offers students and instructors a broad overview of the social meanings of reproduction and offers opportunities to explore significant questions of how resources are allocated individuals are regulated and how very much is at stake as people and communities aim to determine their own family size and reproductive experiences This is an ideal core text for courses on reproduction sexuality gender the family and public health

Near Birth Andrea Lilly Ford, 2025-03-11 This insightful study of contemporary birthing uses the work of doulas to explore the questions raised near birth What do we value and how do we navigate those values when they are tangled in conflict Pregnancy birthing and infant care offer a microcosm of cultural debates In this ethnography of childbearing in Northern California Andrea Ford examines how people s birthing decisions and experiences relate to and construct the American ideal of the individual through the values of progress experience autonomy equality authenticity immunity and redemption Both an anthropologist and a doula who has observed and participated in dozens of births Ford explores how parents practitioners activists laws technologies media and medical institutions shape the politics of care Near Birth shows that questions about the best way to have a baby concern much more than health procedures In the answers lie often unacknowledged claims about what kinds of personhood matter and what ways of living are valued and valuable

Stillbirth and the Law Jill Wieber Lens, 2025 Each year in the United States about one in 170 births is a stillbirth a rate that has remained stagnant for most of this century even as other high income countries have dramatically reduced their

already lower rates Jill Wieber Lens the nation's foremost expert on stillbirth and the law blends personal experience and legal analysis to bring us an original essential guide to this all too often unrecognized public health crisis By exposing how the law shapes stillbirth inhibits prevention and fails those most affected Lens argues for a series of pragmatic data driven changes to the legal landscape that enjoy broad popular support and strengthen reproductive justice and reproductive rights

Modern Families Joshua Gamson, 2015-09-10 A personal intimate account of the extraordinary ways that today's families are being created From adoption and assisted reproduction to gay and straight parents coupled and single and multi parent families the stories in *Modern Families* explain how individuals make unconventional families by accessing a broad range of technological medical and legal choices that expand our definitions of parenting and kinship Joshua Gamson introduces us to a child with two mothers made with one mother's egg and the sperm of a man none of them has ever met another born in Ethiopia delivered by his natural grandmother to an orphanage after both his parents died in close succession and then to the arms of his mother who is raising him solo These tales are deeply personal and political The process of forming these families involved jumping tremendous hurdles social conventions legal and medical institutions with heightened intention and inventiveness within and across multiple inequities and privileges Yet each of these families however they came to be shares the same universal joys that all families share A companion for all those who choose to navigate the world of modern kinship *Modern Families* provides a fascinating look at the remarkable range of experiences that is broadening the very idea of family Booklist
