**Darwin on Trial** Phillip E. Johnson, 2015      **Who Owns Whom** , 2003      *Undeniable* Douglas Axe, 2016-07-12 In this engaging book Axe uses common science to consider the biggest mystery To what or to whom do we owe our existence Dean Koontz A World Magazine Best Book of the Year Throughout his distinguished and unconventional career engineer turned molecular biologist Douglas Axe has been asking the questions that much of the scientific community would rather silence Now he presents his conclusions in this brave and pioneering book Axe argues that the key to understanding our origin is the design intuition the innate belief held by all humans that tasks we would need knowledge to accomplish can only be accomplished by someone who has that knowledge For the ingenious task of inventing life this knower can only be God Starting with the hallowed halls of academic science Axe dismantles the widespread belief that Darwin s theory of evolution is indisputably true showing instead that a gaping hole has been at its center from the beginning He then explains in plain English the science that proves our design intuition scientifically valid Lastly he uses everyday experience to empower ordinary people to defend their design intuition giving them the confidence and courage to explain why it has to be true and the vision to imagine what biology will become when people stand up for this truth Armed with that confidence readers will affirm what once seemed obvious to all of us that living creatures from single celled cyanobacteria to orca whales and human beings are brilliantly conceived utterly beyond the reach of accident Our intuition was right all along Douglas Axe s *Undeniable* is bold insightful and world changing It s also a joy to read I recommend it highly Phillip E Johnson Professor Emeritus of Law at U C Berkeley and author of *Darwin on Trial* An important addition to the debate on the origins of life It provides a middle way between religious and scientific explanations of how life began A must read for everyone who is interested in the origins of our universe The Washington Book Review      [Dr. Johnson's Reply to Dr. Phillip Turpin's and Thomas O.
