Word Analysis, Fluency, and Systematic Vocabulary Development	Reading Comprehension	Literary Response and Analysis	Writing Strategies	Written and Oral Language Conventions	Writing Applications

These are the 2 CAHSEE Word Analysis Standards.

The CAHSEE uses 7 multiple-choice questions to measure these standards. There is no magic list of words that will appear on the test, so this section of the Study Guide discusses some of the strategies that can help you succeed.

You will be asked to explain what a particular word or phrase means. The CAHSEE measures your understanding of both denotation (the dictionary definition) and connotation (the image or feeling that a word or phrase suggests to readers). For example, *house* and *home* have the same denotation: both describe a place of shelter. However, their connotations are quite different. *House* makes most readers think of particular buildings where people live; *home* suggests warmth, comfort, and safety.

If you are not already familiar with a word or phrase in a test question, you will need to apply skills and strategies such as gathering meaning from context or using your knowledge of word origins, roots, prefixes, and suffixes.

These passages and questions are from a previous version of the CAHSEE. Read each passage and answer each question. After each question, a strategy is provided to help you practice your word analysis skills.

10RW1.1 Identify and use the literal and figurative meanings of words and understand word derivations. [5 questions]

10RW1.2 Distinguish between the denotative and connotative meanings of words and interpret the connotative power of words. [2 questions]
